ABOUT US

Neuro Vital IPS

specialized institution in neurological and neuropsychological care, epilepsy and sleep disorders. We provide humanized, safe, high-quality care supported by advanced diagnostic technology and a multicslciplinary team focused on comprehensive patient well-being.

Mission

Deliver specialized neurological and neuropsychological care for sleep disorders and epilepsy, combining advanced diagnostic technology with humanized, compassionate treatment to improve quality of life for our patients and their families.

Vision 2030

To be the leading reference center in Colombia and the Caribbean for excellence and innovation in neurology, neuropsychology, epilepsy, and sleep medicine, recognized for clinical excellence, research, and patient-centered care.

Principles

- Efficiency
  optimized processes and timely care
- Effectiveness
  evidence-based results and outcomes

Arquetype: Cuidador Sabio

Empathy, compassion, and wisdom guiding every interaction. We care with respect, listen actively, and empower patients through understanding and holistic support.
