Tote Bag

Potli Bag

Rather than remain in her birth country of India, Bhavna resolved to expand her unique offering across the globe to Tampa, Florida. "When I moved to the United States in 2020 with my husband and children, many thought it was a mistake. Still, I wanted to empower my two daughters, to show them that everything is possible if you dare to dream and work to achieve it. Within a few short years, my own dreams were coming true with MISSY, my first hair accessories brand. My career as an entrepreneur in my adopted home was no mistake, and so I decided to grow again with a vision to blend my two homes. Inspired by my favorite muse, India, I imagined an extension of my design work and an elevation of the traditions and craftsmanship by my team of Indian artisans."

"The Bhavna Kanakia boutique debut collection is a new line of luxury fashion accessories handcrafted with the highest quality semi-precious stones sourced from the state of Gujarat where I also call 'home.' The lotus, found in my logo, is an extension of my soul. Not only the national flower of India, the lotus connects me to the place I was born, the country who works magic with her hands. This is the magic I wish to bring to you with a collection bearing my heart and my name."
